

Abundance and Manifestation Descriptions

Abundance Prosperity Reiki

This Reiki form was given to a woman named Jane Peterson as she meditated in Nevada in 1998. Lakshmi, the Hindu goddess of abundance, gave her the Shri symbol and specifics on the energies. Jane worked with the energies personally before consulting Bro. David Paul, chc of Dallas, Texas. Bro. Paul worked with the energies, and was given two additional symbols by 2003. He was also guided to add the energies of the Hindu God/deity Ganesh as well.

This form of energy work is thought to be a 4th dimensional form of Reiki that assists the Earth energies and collective consciousness. It helps one manifest abundance and prosperity for themselves, their clients, and also the world. Abundance of peace, gratitude and spirituality are the energy's broader goals.

This modality does use symbols, which I feel are not entirely necessary at this time on Earth, but this is entirely at the discretion of the practitioner. For some, the symbols are very helpful. Instructions on traditional Hindu puja for the deities are included in the workbook, but again, this is certainly not required to get the most out of this modality. I have worked with both Lakshmi and Ganesh, and they are quite benevolent, loving beings. I have found in general that the Hindu religion is an extremely tolerant one, respectful of all faiths.

The manual explains the 5 Principles and precepts of Abundance-Prosperity

Reiki.

Give Cheerfully

Change your voice from want to desire

Know your life purpose

There are no mistakes or regrets

Live the mantra.

"I am Gratitude, I Am Abundance, I Am Prosperity"

The manual also explains the symbols and attunement process to you.

Abundance Prosperity Reiki can begin a lifetime of spiritual growth and change for the student seeking to live this form of Reiki in their life.

Abundance Prosperity Manifestation

You likely know someone who is great at manifesting. You might even have felt somewhat jealous of that person because it appears they have everything, seemingly getting these things with little effort as if they were born under a lucky star. Well, it may be that they very well were born with the knowledge of manifesting already intact. I say this because I believe once we learn something in another life (Yes, I believe in past lives, parallel existences) it is not lost, and that we can choose to bring those talents with us as we move into a new life experience.

The Abundance and Prosperity Manifestation Empowerment is stronger, more than Full Abundance. The concept of Abundance and Prosperity Manifestation Empowerment is abundance comes from within, if for any reason you feel you don't deserve unlimited abundance, this will be projected into your holographic reality.

On the other hand you could have all the material abundance available and continue to feel like you lack something. There is much more to abundance than material possessions and money. Get rid of the beliefs, attitudes, feelings, thought-forms, etc. that are not letting you live in abundance and enjoy it.

Get rid of poverty conscious ids, raise your wealth consciousness, activate the energy receiving conduits in your auric field. Experience and discover the state of inner and outer abundance.

Abundance Manifestation Empowerment will activate your DNA and auric field with the frequencies to attract and manifest the material abundance you desire.

Abundance and Success Empowerment Reiki

The Abundance and Success Empowerment Reiki attunement connects you to the higher frequency energies of Spirit that puts you in harmony with positive abundance and success. This will help you clear any blocks to your abundance and success and it also works to draw positive abundance and success opportunities to you. When you are in harmony with the vibration of abundance and success, you will begin to draw in the things you need to be abundant and successful.

Opportunities will present themselves to you; books, teachers, money, people who may be of help to you in being abundant and successful will be drawn to you by the Law of Attraction. You always draw to you those things that are in harmony with the vibration of that which you are connected to and in harmony with. Like attracts like.

The attunement to the energies of Abundance and Success Empowerment Reiki will speed up your transcendence and help you to achieve your goals and follow your dreams, by raising your vibration and connecting you to the energies of abundance and success. The more you work with the energies the stronger they become.

Ascension & Manifestation Lightwork Program

The purpose of Ascension & Manifestation Lightwork Program is to help you ascend and learn to manifest your desires quicker than it would take for you to learn this on your own. Normally it could take you years, but this program accelerates your ascension so that you can work with these energies right away. I was told by my guides and angels that I needed to make this energy and information available to others immediately! I was told that only those interested in truly ascending their energies and learning to manifest would be drawn to the Ascension & Manifestation Lightwork Program.

It also helps you to move from one dimension of energy to a higher dimension of energy. This helps you to change your thought patterns to those of a higher vibration. This in turn helps you to focus on your goals and desires and take steps to manifest them. You will learn how ascension takes place, and how you evolve into another parallel universal dimension of reality on this physical plane. You will also learn how this helps you to manifest your goals. If you feel drawn to taking the Ascension & Manifestation Lightwork Program course, then you may be ready to move forward with your ascension and begin working to manifest your desires

Good Fortune Prosperity

In Level 1 you will receive an attunement that clears negativity from DNA, Karma, Chakras, and your Aura that effects your Prosperity, Abundance, and Good Fortune. We often are not even aware of these negative thought forms that are created within us as we move through our lives, and in many instances we have carried them over into this life from past lives. These need to be released and cleared so that we may receive the gifts of the Universe. You will learn meditations that will help you to continue to clear the negative energies that build up and cling to your energy patterns and block your ability to receive Prosperity and Good Fortune.

In Level 2 you will receive an attunement which will heal the holes left behind by the clearing process. This attunement will fill the empty spaces and help rebuild your energies to repair the damage of negative thought forms and negative energies that have caused your natural energies to be weakened. By healing your DNA, Chakras, Aura, and Karma, you can begin to function in a healthier and more stable way.

In Level 3 you will receive an attunement that draws positive Prosperity and Good Fortune to you. You will learn meditations for attracting Prosperity and Good Fortune and you will be given exercises you can do on your own to draw in more wealth and good luck. Throughout the manual you will learn which Universal Laws apply to being Prosperous and having Good Fortune, and how to use them to influence the positive energies so that you can live a happy and prosperous life. During this master level of Good Fortune Prosperity, your DNA will be reprogrammed to eliminate negative thought forms of lack and limitation, and replace these with positive thought forms of positive Prosperity and Good Fortune. Your chakras will spin faster, and be brighter. Your aura will glow with health and beauty and you will begin to attract more positive things, people, and situations.

It is suggested that you receive all three levels at once, in one big attunement, each level following immediately after the other. The reason for this is that as you clear and remove the blocks and negative energies, an emptiness or hole is left behind. By receiving all three levels at once, the hole is immediately filled with healing energies and not left open and vulnerable to unwanted things to enter. Immediately following this, the third level brings in the positive energies to draw good fortune and prosperity to you immediately. Think of it as if the negative energies and thought forms that are blocking your prosperity and good fortune are an infection that is slowly eating away at you. The first level removes this infection, the second level applies healing like an antibiotic would, and the third level fills in the wound with new growth that renews and revitalizes. You will not experience the kind of detox that usually occurs with clearing. Though issues may arise that are connected to the negative energies, you simply acknowledge them, and release them in a gentle way without the emotional suffering. This is done in a gentle loving way and the energies of this attunement will then begin to heal the issue, followed by the joy and happiness and universal love that draws good fortune and prosperity to you.

Archangel Michael assists to help heal and release those old programs that hold you back and stop your cash flow. These are things that you have been conditioned to think and accept all of your life. The Angels of Prosperity will then help you to rise above your situation, so that you may begin to increase your flow of money and keep a steady stream of positive Prosperity coming toward you.
