Angels of Earth - Animal Healing

This system combines the Divine Earth Energy and power of Archangels to communicate with and heal animals. It calls on Archangels Uriel, Raphael, Michael, and Gabriel to intervene and lend their power to heal animals. Divine Earth Energy is called forth to heal animals in body, mind, and spirit. Your connection with this energy will heighten your telepathic and empathic abilities to both, communicate with animals and heal animals.

During the attunement to Angels of the Earth—Animal Healing, you will be attuned to all of the energies of this system and the 2 symbols, which will greatly heighten your abilities to perform any and all of the techniques in this manual.

Animal Angels Reiki

Animal Angels Reiki connects you to the higher energies of those animals who have come into your life to help you specifically. These animals are with you to teach you something, to love you, and to bring healing to your life. In working with animals, you will discover there are specific animals that touch your heart more deeply than others. These animals are your personal Animal Angels, who have come to this Earth to help you in some way. Animal Angels Reiki works with the energies of your higher self, and the higher energies of the very special animals that love you, to help you connect with them on a deeper level, so that you can understand the lessons these special animals have come here to teach you.

DNA Healing

DNA Healing Reiki is a very important healing energy useful when treating anyone (or yourself) who has a chronic illness such as Chronic Fatigue Syndrome and Fibromyalgia. Used over time, DNA

Healing Reiki can help repair the broken spiritual DNA that may be the underlying cause of the problem.

Animal Protection Reiki

This energy allows you to protect all species of animals with protection. Your attunement to Animal Protection Reiki connects you to universal energies of the Creative Source for healing and protection of animals. This attunement will strengthen your animal healing abilities, and also your abilities to send powerful protection to any animal to help keep them safe and healthy. The symbol given in this attunement helps you connect to these energies quickly so that you will be able to use them easily and in a hurry when necessary. This attunement is channelled with pure unconditional love of all animals.

Power Animal Empowerment

A Power Animal is an important symbolic used by a person to get in touch with specific qualities found within an animal which the person needs, connects with, or feels a deep affinity toward.

Long ago we understood that we were a part of the earth. We lived in harmony with all the animals and Mother Nature. Today we think humans are the greatest and most important part. Still, we are only one part of the earth, one part of nature, one part of the world, and one part of all-that-is.

The natural power of animal spirit guides has not been lost even if we sometimes believe that. The wonderful knowledge and wisdom of Power Animal guides is still around and can be used to improve our lives and all creation.

You can have different Power Animal guides throughout your life. Sometimes a Power Animal guide will come into your life for a short period of time, and then be replaced by another depending on the journey you are headed towards on your life path.

Your Power Animal guide will be there for you as you learn how to travel through your spiritual and physical life. When you find a Power Animal that speaks strongly to you, or feel you must connect more deeply to, you might fill your environment with images of the animal to let the animal feel at home in your space.

One Spirit 1 & 2

One Spirit is a very powerful healing energy. It uses your heart, unconditional love and symbols. One Spirit takes you on a sacred journey inside yourself so that you can delve deeper beneath the surface and see your true self in all its majesty. Within all of us there are Animal Totems who protect our chakras. There are animals with their own special abilities that guard each of our chakras. Therefore, each Chakra has its own Animal Guardian Spirit.

This healing modality is very similar to Reiki in that it teaches you how to heal self and others, how to send energy distantly and remotely and works to heal all levels, mind, body and spirit. In addition, One Spirit teaches you important lessons about how to love and forgive yourself unconditionally and without bias or judgment. One Spirit connects you to your animal guardians, animal totems and spirit guides. It works with animals and nature. You will learn how to meet your animal guides and how to get to know them, how to help heal each other and how to work together for specific goals including healing self, others, animals and Mother Earth. We are all connected.

We all have one mind, body, heart and Spirit. One Spirit is a powerful Energy System and is especially helpful to those interested in Animal Healing, Shamanism, Totem Animals or Native American Tribal Culture.

Kuthumi Animal Healing Light

An energy work that is directly given by Master Kuthumi. You can use the energy for the healing of sick animals, Master Kuthumi presents us with his energy, a wonderful work for animals.

He puts us very fond of this work, especially because the animals need our support. In the second place, but also because it is time for us to afflict us apart on our fears, the animals, to let go of these fears can finally. Through this process it is possible for us to connect us with the energy fields of the animals and to support them with our energy. Often, the energy flows through the transfer of the animals but also return to us.
