

ATLANTIS AND LEMURIA ATTUNEMENT PACKAGE

ACCESS TO THE WELL OF KNOWLEDGE OF ATLANTIS

Quote from the Founder: In a meeting (or better I say channeling, because this is determined more familiar to you) with Thoth I asked him if there would be no such thing as a knowledge library or a repository of knowledge in Atlantis. Thoth told me that it really existed such a hall within the dimensions in which Atlantis is with him and I could go there. For this travel / dimension jump for several hours energizing was what gave me access to the source of knowledge in Atlantis. The crystal programming - technology in Atlantis Just as the Akashic Record which is reflected in our DNA, so one's stored knowledge in us, so there / it is stored in a crystal of Atlantis all knowledge of this time period. Already known from ancient Lemuria is that people have programmed crystals. However, people had in the last days of Atlantis, especially a strong interest in maintaining their power structures. Access the source of knowledge - you can always have access to the source of knowledge in Atlantis get and you're always welcome you into the vibration and resonance of Atlantis go. Please remember that this is simply a space-time shift, the higher vibrational frequency, or higher dimension in which there is Atlantis. Because nothing is what was and is ever lost, you'll always be able to look at everything, the only question is whether you're ready. The Atlanteans will greet you with joy and guide you. This agreement / activation occurs in the very high Ascendancy 999 Energy.

AMARA OMNI REIKI

Amara is an energy-consciousness of individual empowerment and self-discovery. Even though Amara can bring forth healing on all levels and dimensions, the actual intent is not to heal but to become aware of our subconscious currents. These deep "inner waters" hold the key to the mystery of our being.

The energy-consciousness of Amara assists us to accept our wounds and issues as they are now and helps us to become fully aware of their reasons for manifesting. We all experience pain at some point or another and some experiences leave wounds that stay open even through many lifetimes. By becoming aware of the patterns that keep these wounds open, we finally allow them to heal naturally. Nothing needs to be undone or fixed, as our true nature is whole and perfect. Allowance is the only thing needed to experience healing.

Amara will help us to see our "darkness", our shadow self, and accept those aspects of ours that we do not like, or feel separated from. Amara will help us connect with our subconscious, where most of our true power and magic currently resides. The energy-consciousness will work with us so that we can bring these subconscious aspects into our conscious experience of who and what we are. Through understanding the mystery of our Self we reach mastery.

Amara represents the aspect of the self that is fully grounded in its own divinity, radiating the full spectrum of its being outwards.

Amara is like water, transforming itself to fit every possible situation that manifests. Amara is ever-evolving, flowing and unfolding. When we experience that state of being, we become Amara itself, as it is not some form of consciousness that is separate from our own.

The core nature of Amara is consciousness and it should not be seen as a mere energy stream. The movement of consciousness creates energy. This movement is quite important, as it will help in aligning ourselves with the core of Amara. The energy guides us to the core by facilitating shifts in perceptions and consciousness.

Unlike some systems that focus more in simply balancing the energy flow of our subtle bodies, Amara also works in the level of pure consciousness. The energies will align the subtle bodies so that the actual consciousness can ground itself into our being. This is not "better" or "worse" than systems that focus more in getting direct results with energy manipulation. This is simply different. Amara works extremely well for those who resonate more with this particular approach.

Amara does not offer quick fixes to physical or psychological imbalances. It does not offer a fast path to "enlightenment" either. Amara simply offers a journey within. When we reach and experience the core we begin to understand everything that happens around it. In that space we can find true healing and empowerment.

Amara has connections to many different realms of consciousness. It can be said that Amara is actually a unified group consciousness composed of several unique aspects of the divine. The cetaceans (whales, dolphins and porpoises), the ancient civilization of Lemuria, the Lemurian goddess Amara, the Rainbow Serpent and Dragons among others are the most prominent connections.

Many of these have strong connections to water and it seems to be the main symbol for this whole system. The energies can be seen or felt as flowing liquid light and liquid "dark matter", which represents the Void energies.

ATLANTEAN PEACE REIKI

Atlantean Peace Reiki is the energy of an entire race of peoples. It comes to assist mankind and move him out of a selfish, controlling and dominating state of consciousness, into a place of consciousness where he is truly at peace with himself and all that is around him. This energy is great to use in a group setting, healing session or area to set an environment.

ATLANTEAN CRYSTAL ANGELS

With the help of this system's energy vibrations, it is possible for us to again find the entrance to our "Atlantean consciousness". Through this knowledge we will be able to progress spiritually and to ascend into the next higher dimension.

Within our Atlantean consciousness we will be able to reunite the opposites within ourselves, which will lead us to unity and inner healing. By means of this consciousness it will be possible again for us to get in touch with plants, animals and with the "small people". We will be able to repeal the separation and as a result of this, release karma.

ATLANTIC LIGHT TEMPLE

Atlantic Light Temple - Atlantis The Atlantean Angels gave this beautiful energy to Sabine van Tellingem. In Atlantis there were many Light temples. Every one of them held a certain energy level in order to help the people take the next step for themselves. The Atlantic Light Temple Energy helps you (with green healing energy) to develop yourself further and to gently remove old blockages. The system revives the ancient Atlantean energies that came from the Atlantic ocean.

ATLANTIS HEALING SYSTEM

The ATLANTIS HEALING SYSTEM was rediscovered by a group of European clairvoyant people in 1993-1994 by people who studied the Akashic Records.

Atlantis Healing System is:

The way of learning to be again a pure, innocent child by the help of the divine power, harmony and light.

The way of rediscovering the beauty and the truth in ourselves.

The way of getting better than we are.

The harmony's way between inner and outer thought and word, God and man.

The way man can rediscover his own spirit, his own divine essence.

Returning to God, returning to faith.

The way we unite with the Universe.

Rediscovering the divine in us.

This is a first step of the energetic therapies used by the ancient Atlantean Masters.

This first system was known, learned and used by the entire population. After an undetermined time period (according to each individual), which during the Initiate was receiving the energy, he worked with it, he knew what he could do with it, he opened a

new perception horizon, a higher step of understanding himself, the others and the Universe.

Then the second step was coming automatically, they was training in Atlantis Master System. Reiki works on every level (physical, mental, emotional, and spiritual) having a general action.

AHS works on the affection level, on the generating cause of energetic un-harmony. The patient transforms Reiki by his chakras while AHS has a direct and spontaneous effect on the patient and the healing can come on the spot.

In Reiki there is no diagnosis, but there is in AHS. Reiki does not work on the cause of the affection, AHS works directly on it. In Reiki the patient is directing the flux of energy he is receiving, in AHS it is worked on a certain energetic level that is according, generally, to the cause of the affection. AHS is not a more powerful energy than Reiki but it represents a different level of human knowledge, it works on other levels.

Here is why these two systems are not in competition:

They both have their own way of action, their own energy so that they can complete each other very well.

Reiki is considered to be passive while AHS is the active one because is interfering, searching, analyzing, concluding and stating a certain program to follow in order to reach the cause level. This is why AHS is considered to be active. Passive and Active merges and so it is created the balance. Yin – Yang. Male – Female. This is the Universe: balance.

There are two great powers in the Universe: God and man (as he was creating in the beginning). In all the Initiation Schools man is represented by an equilateral triangle, top up, (representing man's desire towards the divine, the matter's desire towards the spirit). Divinity is represented by an equilateral triangle, top down, (representing the spirit that manifests itself in and by the matter). By merging the two equilateral triangles it results the hexagram, the symbol of the Harmony between Divine and man. This is why AHS is putting in harmony and balance the two powers (God and Man) being an intermediary of the two. This is why AHS actions at the divine level to establish the diagnosis but at the human level to, for treatment.

Practically AHS is a way of: **ENERGETIC DIAGNOSIS** – for human being, animals, plants. **ENERGETIC TESTING** – for water, food, medicine, plants, vitamins, homeopath remedies, Bach floral therapy, as well as establishing the daily dose, the administration period (how many times daily, how long-days, weeks or a certain period of time) an the administration methods (oral, parenteral).

ENERGETIC TREATMENT – using hands and/or symbols. The AHS method diagnosis is taking 3- 5 minutes and the treatment is taking between 7-15 minutes. For this special reason, nurses, doctors, can use the technique in hospitals. It's not to replace the medical diagnosis, it helps to better understand the levels of disease (matters, energetically, psychical, souls, spiritual) and the real cause of that.

We are now open to the higher state of consciousness, the higher vibrations. This process, which was already announced by many ancient prophecies, enables us now to our innate knowledge retrieval. We see are ONE with mother earth, ONE with all life, we are DIVINE. In this initiation, our physical body of a cleaning subjected to prepare ourselves, our entire light codes that we take for Atlantis in us, can be activated and we thus get access to our original knowledge. Then we will be accompanied by Thoth the Atlantean, in the Atlantic crystal temple. Here we will gain access to our heritage and can claim our true heritage and enables to realize that in this world. An initiation is a promise to our own mastery, the love of All That Is, it opens us to the highest degree in service to the Light. It reveals to us our deepest being and reveals to us who and what we are. It allows us the love we have intended to embody in this world. An Initiation gives us tools and resources, as well as the allies, so this way is so unswerving and effortlessly as possible.

BLUE STAR LEMURIAN HEALING REIKI

Blue Star Lemurian Healing Empowerment System Channelled with love from the Lemurians - higher beings of light. The Lemurians are star people descendants of Sirius the Blue Star. The Lemurian vibrations rise once again, and they come in this great time of shift in consciousness on earth, to assist the planet in ascension and to assist us and teach us how to live in oneness with each other, with earth and all her creatures in peace, harmony, beauty and love. They are here to teach us how to heal ourselves and others and the earth.

The Blue Star is known also as Sirius or The Great Central Sun. It is call the Great Central Sun because it is the brightest star in our solar system; it's brighter than the sun. This is the source of life, light and love coming to earth and nurtures all of her inhabitants. Sirius is the seat of the Blue Lodge of Creation inhabited by souls of the high level who create our planet and seed it first with Lemurians. The Lemurians are star people descendants of Sirius. They brought to earth from Sirius the blue light and the Law of the four which is the four directions of earth: North, East, South and West. Like the Lemurians, we all come from stardust. The Lemurians were the first inhabitants of earth. They came to live here in peace, harmony, love, and oneness, and they share the beautiful gifts of earth with all her creatures. When Lemuria sank, the Lemurians worked in oneness to sink her into the earth under the water. Lemuria exists under the earth in another dimension not visible to our eyes. The Lemurian vibrations rise once again, and they come in this great time of shift in consciousness on earth, to assist the planet in ascension and to share with us their way of life, wisdom, beauty, love, purity, peace, harmony and light. They come to assist us and teach us how to live in oneness with each other, with earth and all her creatures in peace, harmony, beauty, and love. They are here to teach us how to heal ourselves and others, and the earth.

CELESTIAL ABUNDANCE ENCODING

Pleiadian Energy of Abundance from Founder Anna May A powerful encoded Ethereal Crystal which, when activated, can facilitate an aura of abundance that draws positive vibrations to manifest more fully in your life. This encoding may be used in combination with other vibrational healing modalities. It may also be used on a regular basis to enhance abundance in all areas of your life including financial, love, health, happiness and peace. The particular tribe through which this wonderful energy frequency was received are the Pleiadians. These highly evolved spiritual beings work

with us on our ascension journey; they provide support and furnish us with tools to assist and accelerate our spiritual evolution.

DOLPHIN STONES OF MU

The Dolphin Stones of Mu is a beautiful energy system that was channelled by Stewart Farquharson. Mu and Lemuria are said to be legendary lands that now reside beneath the oceans of India and the South Pacific. The people were civilized and gentle in nature and were greatly aware of the subtle magic of the land, sky and the sea. Through your attunement to this simple to use energy you will gain a spiritual connection to the ancient Lemurians as well as learning how to use sacred seed crystal symbols to aid in your connections with them.

HO'OMANA

Huna, also known in ancient times as Ho'omana, is an ancient Hawaiian spiritual tradition, which was almost lost when Hawaii was 'invaded' by outside influences. Modern research has theories that it is incredibly old. How old is still a question for debate.

Legend traces Ho'omana or as it is known today as Huna back to Lemuria. Mu, as it is known in legends, was a continent that stretched across the Pacific Ocean. All that remains of that mythical place are its largest mountain peaks, known today as Tahiti , Polynesia , New Zealand , Hawaii , and the other Pacific islands. It is said that the peoples of the South Pacific descended from Mu and that Huna was their religious philosophy.

Huna is 'religious' only in the sense that it guides us to attain spiritual perfection. It is not, however, a religion. It is possible to maintain your religious affiliation and practices, and to be a practitioner of Huna, which is a very broad and inclusive,

Universal Way

Huna is scientific as well since it deals directly with the physical world, in the here and now, and the processes and techniques produce predictable, repeatable and transferable results with people and the environment. These results have been, at times, labelled as magic or occult and yet the unseen forces that produce these effects are very real.

Huna is also a way of life, a philosophy, a way of the heart, with a strong and yet simple code of ethics. It encourages the balance between the physical, mental, emotional and spiritual aspects of 'being'.

Huna is all embracing and sees no conflict with other traditions. There is no one 'right' Huna, and the customs and details of Huna vary from practitioner to practitioner, from Island to Island.

Huna places equal emphasis on connecting with your spirituality and connecting with the earth, your body, and your emotions. Rather than teaching transcendence of the physical plane, Huna teaches us to celebrate life, to merge matter and spirit.

Huna believes that there are the three key qualities of the heart: The ability of your heart to give and receive love, courage and openness to life.

The Philosophy

The teachings offer wisdom that the key to living a fulfilled life lies in the awakening and integration of your subconscious self (Ku), conscious self (Lono) and higher self (Kane). It offers us a profoundly beautiful philosophy of life centered in love and the vision of humankind, nature, and the divine as harmonious parts of a cosmic community. But this is not just a philosophy; more than anything else it is something you do. It gives us a set of practices that are simple yet, when used regularly, profoundly transformational.

INGA REIKI

The energy of Inga Reiki is soft and pleasant and penetrates the body balancing our Chi flow. Blockages are worked on and dissolved.

Inga Reiki contains new possibilities for healing and also contains very powerful energies. Inga Reiki was rediscovered by Severina in Brazil. These stone carvings are said to have originated in Lemuria many thousands of years ago.

In the Lemurian society stone carvings were used by Adepts to reach altered states of consciousness and to confer upon the powers to communicate with the beyond and to intervene in the real world.

Since there are many different energy systems in the world today from many different cultures, Inga Reiki, presents for the first time the Lemurian Brazilian Energy connection.

Ingá-Reiki is a simple energy system. Ingá-Reiki is simple because it has the ability to transfer energy through the attunement process and not by the acquisition of technical knowledge.

It was developed or rediscovered by Silva by Severina. As included in the name, Ingá-Reiki has several things in common with Reiki, particularly the basic idea that there is a universal energy that allows someone to channel the energy to human beings that can be used for different purposes.

The basic knowledge to work with Ingá-Reiki is communicable as in the case of Reiki in a course of several hours. It does not need to be studied for many years.

In this course you will learn:

- * What is Ingá-Reiki?
- * How does Ingá-Reiki work?
- * The origin of Ingá-Reiki
- * The symbols of Ingá-Reiki
- * How to work with Ingá-Reiki?
- * And More

Level II has two symbols and you learn long distance healing the Inga Reiki way. The level III contains the Master Teacher Attunements. Inga Reiki can be regarded as a wonderful alternative to Usui Reiki or can be combined with it. As far as we know this is the only place in North America where Inga Reiki is taught and available.

LEMURIAN ANGELS

Lemuria was an ancient civilization which existed previous to and during the time of Atlantis. Physically, it is believed that Lemuria existed largely in the Southern Pacific, between North America and Asia/Australia. Lemuria is also sometimes referred to as Mu, or the Motherland (of Mu). At its climax of civilization, the Lemurian people were both highly evolved and very spiritual.

This was a culture that existed in the area that is now the Pacific Ocean. It was a tropical, femininely based, village society. It had central places where there were groups of clairvoyant seers, oracles and holy people did healing and sound work. This was a non-power oriented society.

LEMURIAN CRYSTAL BAND OF LIGHT

The Lemurian crystal band of light is an electromagnetic force field of crystal energy light that surrounds planet earth. The crystal band of light emanates a high energy love force that holds the power of creation. The crystal band of light holds inside it the high vibration of unconditional pure love, harmony, unity and peace. The Councils of Light allowed the Lemurians, before the Land of Lemuria sank in the ocean, to create a crystal band of light that was placed around planet earth to assist Gaya and humanity when the time for ascension comes. Its intention is to raise the vibrations of humanity and help them transition into higher dimensions of light and consciousness of love, harmony, and peace to create the golden age on Gaia. Humanity doesn't have to remember how to activate the Lemurian crystal band of light, but to attune and align with the energies of the light energy field.

LEMURIAN FACILITATOR

The "Lemurian Facilitator" is the first in the series of these courses. The Lemurians were very peaceful beings who lived on the island of Lemuria in the Pacific. While the Atlanteans were much more technological, the Lemurians were more orientated with powerful psychic abilities. There was a time when the beings could no longer inhabit their earthly land and some of them left this planet, but yet remained connected. Others live within the earth and are now bringing forth the Lemurian seed crystals to help enlighten us.

This attunement introduces you to the Lemurians. They will initiate you into their world so that they can communicate with you and they will enhance your psychic abilities. However, once you have had this attunement, it is necessary that you work with the energies and call upon them in order to strengthen the energies. You must ask them to help you.

LEMURIAN INDIGO CONNECTIONS

From the Founder: I work regularly with a number of light beings but in particular with Lemurians and Avalonians. Through my work with these beings I have received inspiration and insight and have channelled the Indigo Connection.

The Lemurian Indigo Connections attunement was received during a Lemurian ritual meditation while in communion with the Lemurian Goddess, Amara. Amara is a goddess of the sea, fertility, abundance, love and nurturing. The sea represents prosperity, birth, rebirth and the goddess Amara is a powerful guiding force for those drawn to Lemuria in their spiritual development and growth.

The symbols and mantras of the Lemurian Indigo Connections serve to assist the Indigo/Lightworker in their work; building their confidence, re-establishing their spiritual connection and bringing them the comfort of the spiritual home that they long for. And for those of you that don't think that they "foot the bill" as either an Indigo or Lightworker, if you were drawn to this attunement, you are one! And this attunement is part of your soul-journey.

During the attunement a series of seven connection symbols are imprinted into your energy field and each is activated through use of a mantra and/or the application of the symbol to the body during meditation or healing work.

The symbols are all representative of different aspects of Universal energy that are brought to us through Amara; these are along the lines of spiritual tools that you can use to maintain your wellbeing on all levels and which are particularly relevant to those of an essentially spiritual disposition.

A detailed manual is supplied with this course and includes the following:

- The Indigo Connections
- Indigos, Lightworkers and Crystal Children
- The Lemurian Goddess Amara
- Information about the Lemurians
- The Seven Connections
- Self-treatment
- Preparing for your attunement
- Attuning others
- Grounding yourself

LEMURIAN SEED CRYSTALS 1 & 2

The "Lemurian Seed Crystals 1 & 2" is the second in the series of these courses. The attunement for the Lemurian Seed Crystals enhances your ability to use crystals, especially the Lemurian Seed crystals, for directing energies, connecting to crystals, and using them to gain information and psychic messages. The attunement helps to enlighten you and gain access to the energies of the Lemurians and the crystals for healing and spiritual growth.

LEMURIAN SEED CRYSTALS 3 & 4

The "Lemurian Seed Crystals 3 and 4" is the third in the series of these courses. The Lemurian priests were able to connect with the Lemurian Seed Crystals. The Lemurian Seed Crystals are used as tools for natural healing and also with easing negative karma. Lemurian Seed Crystals 3 is an extension of the original Lemurian Seed Crystals in Levels 1 and 2. There are 4 Lemurian Seed crystals in this level.

All seed crystals should be used frequently. The more you use them, the more powerful they will become. In level 4 there are 7 new symbols. The prerequisite is Lemurian Facilitator and Lemurian Seed Crystals 3 attunements.

LIGHT OF LEMURIA

The Light of Lemuria attunement connects you to the Lemurians and strengthens any already existing connections. This is an empowerment system that helps develop and enhance psychic abilities, helps bring forth the hidden memories of the distant past in which the Lemurian and Atlantean cultures existed. You may have been a part of this culture in a past life, and if so, you may feel the echo of truth in the information contained in this manual. For the distant memories that have been hidden for so long will begin to surface, teaching you the way of light, love, and empowerment. Look beyond this lifetime. Look to the past, and then to the future, because it is now that you can make a difference for tomorrow.

The Light of Lemuria manual covers a bit of Lemurian history, gives information about the Cave of Initiation, the Crystal City, seed crystals, interdimensions or alternate realities or timelines, healing, telepathy, colors associated with the Lemurians, and What the Lemurians Want You to Know. The Lemurians offer peace, love, wisdom and great healing to you. They have assured me that it is time for this information to be brought forth, time for Humanity to know and ascend. You will receive the manual, a very short lineage and a certificate of completion in addition to the attunement to these wonderful energies of the Light of Lemuria.

LORD RAMATIS

The Master Kuthumi and Ramatis, are actually the same source of Consciousness. Ramatis is today the Secretary General of the BROTHERHOOD OF THE CROSS AND OF THE TRIANGLE, which seeks to spread the teachings of Jesus, along with the spiritual tradition of the East, thus establishing a fruitful exchange between the chains of the Western Spiritual Fraternities Initiation of the Eastern World, with significant benefit for all Humanity.

Ramatis, like many of us, is derived from the Star System Sirius. In Atlantis, he was a Priest Aumbandhã, which was an ancient wisdom which he brought from the System of Sirius, which means Greater Divine Law or the Secret Wisdom, Septenary and Esoteric.

Aumbandhã is an instrument of White Magic used by high priests of the Atlantean Light, in fact, the White Magicians, composed by the Cosmic Laws and Forces of Nature, to stop the advance of darkness.

NEW LEMURIAN ENERGY

The "New Lemurian Energy" is the last in the series of these courses. The New Lemurian Energy is a mixture of old and new energy. Serapis Bay, called the Egyptian, is the guardian of this new Energy. He is an incarnated angel. He worked his cooperation with the people when they had a better understanding of self-love again. He is mediator between the worlds and therefore he leads you to the gate of the advancement to your connection back to the Lemurians.

PLEIADIAN DNA CLEARING

Pleiadian DNA Clearing & Activation Program - From Anna May This is a series of 7 attunements which is facilitated by the Pleiadian Light Beings from the planet Alcyone which energy works on an etheric level to awaken and develop your full 12 strand DNA. This powerful system will affect and increase your basal vibrational rate on all levels. This will increase your vibration as we prepare for the planetary ascension.

PLEIADIAN WHITE LIGHT CONNECTIONS

This energy is channelled from the Pleiadian Light Beings working with us as we prepare for raising the vibrational frequency of the earth as we moved into the photon band during Winter Solstice 2012. The Pleiadians have strong links to the Lemurians and have visited us a great deal over the last 80 years. They have observed and assisted in our spiritual progress for the preparation of our planet into the Age of Aquarius.

RAY READING - 18 RAYS

The *Ray Reading* manual came about through *The Melchizedek Ambassadors Training Program (The MAT Program)*. *The MAT Program*, published in 2003, is essentially an accumulation of Mystery School teachings that have previously been taught in ancient Egypt and Atlantis through the Eye of Horus. Written in the form of guided visualizations, this program is based on an energy system of initiations, rays, sacred geometry and the Qabalah. In addition to this, *The MAT Program* takes these initiations to a new level, allowing for the possibility of a Cosmic ascension journey into the Divine Unfolding Light of Mother/Father God through Jacob's Ladder II and the Cosmic rays.

The manual is 82 pages long and includes topics such as:

First ray of Will and Power

Second ray of Love-Wisdom

SEVEN PEARLS OF REIKI

The teaching of the Seven Pearls of Reiki, transmitted by the basis of channelling by Ascended Master Djwal Khul, is a new lineage of Reiki which permits to access the healing of the heart.

This training is aimed at all Reiki Masters who wishes to raise their personal level of vibrations as well as the ones on planet Earth in order to reduce suffering and heal humanity.

This transmission brings us back to our forgotten very ancient sources of Knowledge dating back to Atlantis and Lemuria It permits us to reconnect to our hidden memories where we transmitted, as Light Workers of the 4th Dimension, the Love Energy of our Diamond Heart. Seven new symbols are introduced during the attunement to the Seven Pearls of Reiki.

An important vibration modification will be revealed after receiving the attunements and will permit deeper healing sessions as well as aid with your commitment to serve on this Divine Plane.

The teaching of the Seven Pearls of Reiki permits the integration of the Energy of the new symbols and of the Ascended Masters. At the end of the training, you will be able to teach this wonderful transmission.

SHAMBALLA MULTI-DIMENSIONAL HEALING

Shamballa Multi-Dimensional Healing is a complete system of energy used for healing and personal spiritual development. It is now available to all people of Earth. The Shamballa system is a revival of the ancient Atlantean healing arts brought forth by Ascended Master St. Germain through John Armitage. Master Germain used this same energy during his incarnation as a high priest in the Atlantean healing temples prior to the destruction of Atlantis.

Shamballa Multi-Dimensional Healing is similar to Reiki in many ways but it is an independent system. It is a form of energy healing that is effective and therapeutic to give and receive. Energy of the Ascended Masters and Mahatma Energy is combined with Shamballa Multi-Dimensional Healing. It is Multi-Dimensional so not only works on the physical level but on all spiritual, mental and emotional levels.

Reiki travels to wherever it is required in the body and energy field - so does Shamballa. Wherever you place your hands on the body, the energy will find its way to where it is needed. Shamballa is a wonderful energy that is great to use for both the recipient and practitioner alike. A typical Shamballa MD Healing treatment takes about 10 minutes. The four Shamballa attunements open you to receive up to 352 etheric symbols (revealed in meditation or dream state). You don't need to know all these symbols as they will come to the practitioner intuitively if they need to be consciously known. You do not need to have been initiated into Reiki to learn Shamballa, although the two do work well together.

The central core of Shamballa is Love and Freedom. Love for oneself and an innate knowingness of one's connection with Mother/Father God and all Creation. Freedom from all that stands in the way of that knowingness. Freedom to know who you are, and to step into your Power, to step into your Mastery.

The origins of the Shamballa system lie way back in pre-history as we know it. Germain was incarnate in Atlantis at the time. He brought through the original system in order to help in the evolution of low vibrational beings who were being used as slaves. He wanted to make this slavery unacceptable, and to free these beings from their bondage of ignorance. The system today is much expanded, for we are ready for much higher energies now. But its purpose is similar?to free us from our bondage of ignorance, to bring us into the Love and Freedom of our own mastery. What does it mean to be a Master? It does not mean power over others. It simply means being a Master of oneself. As any true Master will tell you.

SPIRIT OF ATLANTIS

Much of the info the Atlanteans used, remains hidden to mankind. The energy helps mankind know that the Universe contains enough for each individual to have all that he/she desires without ever depriving another of anything. It encourages helpfulness, cooperation, brotherhood and ingenuity for the greater good of all. This energy is great to use in a group setting, healing session or area to set an environment. Helps you work with and in the spirit of the Atlanteans. Doing so helps you experience the infinite abundance of the universe.

SWORD OF POWER AND JUSTICE

Channelling of 07.05.07 - Archangel Michael:

I greet you my love, I'M MICHAEL, Archangel Michael. I AM the creator of the sword of power and justice. The gates open up to reality, my legions are ready to Cooperate in the largest events of a ll times. My reputation is known throughout the universe, to all those souls that are called, and to those who once served under my dominion: The legions of Archangel Michael. It is now time to wake up, and follow the call of your soul, and to recall times long past. The time is now for the "Light Warriors" to follow your path

and to remember. I invite you now, to join with me in a dimension jump, to the land of Lemuria.

TELOS HEALING SYSTEM

Telos is an ancient Lemurian city that exists right beneath Mount Shasta. It's a real city in the physical realm, with over 1 million inhabitants that are living in peace and prosperity.

The city of Telos has a very special frequency of love. This energy is very beneficial in healing sessions.

With the Telos Healing System, 5 programmed stones are used and placed in a special "grid" on and around a person. The stones will automatically connect to each other and start broadcasting the love frequency to the body. This is very relaxing and often results in healing on a deep level. A session normally takes 10-15 minutes.

The system is very easy to learn and perform.

TURQUOISE FLAME REIKI

The turquoise energy ray stands for loving yourself. Turquoise stands for Atlantis and for the dolphins, with their skill to communicate from one heart to another and their ability to confide in the depths of the ocean and to ride the waves exactly so, as they come and go, as the breath comes and goes. Turquoise expands the lungs in order that we can assimilate as much of the valuable life energy as possible to rebuild and ride the waves of our lives. To resist against these waves that come and go creates congestion in our energy field. Turquoise brings the flow back to your life and emotions.

THE ATLANTEAN AND GAIA TRILOGY - WHICH INCLUDES THREE COURSES: CRYSTAL SKULL ACTIVATION, ATLANTEAN CRYSTAL ACTIVATION, AND ELEMENTAL EARTH STAR EMPOWERMENT

The Atlantean Crystal Activation

The Atlantean Crystal Activation is the 1st in a Trilogy of Systems created by Jay Burrell to bring a new energy from Atlantis and Mother Earth (GAIA). The Purpose of this Activation is to bring in the knowledge and Energy that was and is stored into the main Atlantean Crystal which was kept in the Great Poseidon Healing Temple in Atlantis. The Atlantean Crystal Empowerment will activate the lost strands of DNA within you. An Etheric Atlantean Crystal will permanently be placed above your Crown Chakra to permanently connect you to its energies.

After the Activation it is recommended that you activate the crystal at least once a day during your meditation time to gain a rapport with your own Crystal and to learn of the Ancient Secrets of that this crystal holds.

This could be anything from a Past Life experience to bringing forth new Unknown Knowledge that will be passed to you. These messages will mostly focus on helping humanity to evolve to a higher dimension of thinking.

It raises your vibration and helps to change mankind by working to eliminate pain, suffering, lack and limitation, injustice, and all lower self-thinking that harms self or others. By raising your vibration, you are working to eliminate problems and lower Vibrational situations here on Earth.

This can work on a personal level as well, because every lesson you master will never have to be dealt with again.

The Crystal Skull Activation

This Crystal Skull Activation is the 2nd system in this trilogy. From the founder: The crystal Skull Activation came to me while I was passing the Atlantean Crystal Attunement to a Student, A Spirit being came through calling himself Moldor saying he was the keeper of the crystal Skulls and that I should allow these new energies to flow through me. He also mentioned that now was the time for these skulls to come forward etherically to help mankind in there Ascension process.

The Atlanteans are at a higher level/dimension than we are which is why we cannot detect them but they know we are here and are now coming forward to help us in our spiritual progression and ultimate ascension for Mankind and Mother Earth.

A crystal skull is a stone carving in the shape of a human skull. Some are made of pure quartz crystal, but many are made of other types of stone found in abundance on Earth.

They are endowed with magical powers such as the spontaneous production of holographic images, Ancient knowledge and wisdom about mankind's past present and future. The Crystal Skull can also help in astral projection, where you will be able to visit other dimensions and worlds. They also emit a frequency that is called the Earth Frequency. Crystal skulls are a center of radiant psychic energy and have the power to increase happiness and improve people's lives for the better.

The Crystal Skull that you will receive during your Attunement will always be with you, as it is placed above your crown Chakra into your 8th Chakra (Transpersonal Point/Soul Star Chakra) which will be above the Atlantean crystal that is placed into your 7th Chakra or crown chakra. Once attuned to the energies of the Crystal Skull, and have had your own Ethereal Skull placed into your 8th Chakra, this will help you with any and all psychic abilities you may have or may not know you have.

The Elemental Earth Star Empowerment

The Elemental Earth Star Empowerment is the 3rd and final Attunement in the Atlantean and Gaia trilogy of energy systems.

During your Attunements to the Atlantean Crystal Activation and Crystal Skull Activation which are prerequisites for receiving this Empowerment you were connected to higher bands of Energy as well as the higher aspect of yourself (your Higher self).

Now is the time to anchor and draw upon the energies of our mother Earth (Gaia) to help ground yourself and to tap into the unlimited energies that mother earth has to offer to clear and cleans all levels of your being to become whole.

From the founder: In the Atlantean Crystal Activation Manual I talked about Lay Lines or Energy Lines that run throughout the earth. These lay lines run directly through the Earth Star Chakra that we all have and is situated just 3ft below our Earth Chakras (Soles of Feet). The main benefits that you will receive from accepting this Attunement is that you will become whole in yourself and the balance of Masculine and Feminine energies within us all will become one. You will also gain a stronger connection to mother earth and through using the energy of the elements you will bring healing to not only yourself and Mankind but also to mother earth.
