

SHAMAN PACKAGE

One Spirit 1 & 2

One Spirit is a very powerful healing energy. It uses your heart, unconditional love and symbols. One Spirit takes you on a sacred journey inside yourself so that you can delve deeper beneath the surface and see your true self in all its majesty. Within all of us there are Animal Totems who protect our chakras. There are animals with their own special abilities that guard each of our chakras. Therefore, each Chakra has its own Animal Guardian Spirit.

This healing modality is very similar to Reiki in that it teaches you how to heal self and others, how to send energy distantly and remotely and works to heal all levels, mind, body and spirit. In addition, One Spirit teaches you important lessons about how to love and forgive yourself unconditionally and without bias or judgment. One Spirit connects you to your animal guardians, animal totems and spirit guides. It works with animals and nature. You will learn how to meet your animal guides and how to get to know them, how to help heal each other and how to work together for specific goals including healing self, others, animals and Mother Earth. We are all connected.

We all have one mind, body, heart and Spirit. One Spirit is a powerful Energy System and is especially helpful to those interested in Animal Healing, Shamanism, Totem Animals or Native American Tribal Culture.

Goddess Freya's Warrior Heart Empowerment

This system encourages you to release any energy patterns from your lives that prevent you from becoming warrior healers! There is a wonderful meditation that is provided that guides you through doorways where you must embrace all areas of your life good and bad and accept them.

This allows you to embrace the part of yourself that has been hidden. During your attunement process, Goddess Freya will etherically give you a sword and shield just for you that will aid you in battling energies that you will be releasing.

It will cut negative karmic cords and connections to people or places that do not serve your Highest Good. The shield is used to push away and protect you from these energies.

Power of Ixchel

The energy of the Power of Ixchel Reiki brings us many powerful gifts which enhance our lives. Among which are joyfulness, happiness, health, abundant energy, vitality, benevolence, connection to our inner and outer beauty, sexuality, sexiness, greater connection to the Divine, protection, good luck, abundance, friendship, relaxation, spiritual attunement, enhanced intuition and meditation, soul expression, manifestation of spiritual qualities, healing, luck and money and so much more.

Ixchel's energy empowers us to refuse to become a victim of oppression of any kind by granting us personal power when we face adversity. This powerful energy can help us to take charge of our life and turn it around no matter what the circumstance.

The energy of this system encourages us to acknowledge negative forces in our lives. It prompts us to assert ourselves fully in the face of difficult circumstances such as physical or emotional violence that would reduce our sense of self.

The commanding power of the energy brings forward the knowing that the Divine resides within us that we are part of the Divine and therefore the Divine lives and acts within us.

We are one with the Divine mind. We are part of the Divine's grace, wisdom and spiritual healing power. It will help us to honor our healing gifts and awareness.

The Power of Ixchel Reiki healing system will assist you in connecting to Ixchel's different aspects and bring her powerful energy into your life enabling you to connect to the spiritual healer within you.

It enables us to connect to the Divine Source of power within us so that this power which resides within us is greater than before we received the attunement. We can then utilize this energy within us, the Divine within us, all around us, to work through us as a more powerful channel of Divine healing.

Pachamama Aura

South American Shaman energy. Mother Earth is Pachamama. In South America along the west coast there is a range of high mountains called the Andes. Native people moved here from the jungles of Central America and learned to deal with the cooler “cloud forests” and the dry plateaus. They discovered the potato and corn and llamas, and began to build civilizations. The oldest ones were on the coast and honored the Jaguar and the Caiman, as people do farther north. Much later came people who honored the condor, the puma, and the snake. These stood for the Upper, Middle and Lower worlds of the spirits. A great Tree of Life allowed talented shamans to travel across these places.

Shaman Power Symbols

The energies and symbols of this system were passed on to Khonsu by a Master who sought the most effective symbols from various Shamans worldwide. The information regarding the use of these symbols and the initiation was channelled by Khonsu. It should be noted that Shaman Power is attained through initiation only. The initiation brings in the flow of Shaman Power connecting the initiate to this powerful Ancient form of Healing. It is very useful for those who are already Masters of systems such as Reiki or Seichim.
