Ascension Vibration

Ascension Vibration™ reconciles the separation between matter and spirit, here, and beyond. Freedom of movement through the dimensions in spirit and possibly through the increased vibration of your physical body into a light body is enhanced with Ascension Vibration.

Ascension Vibration is unity through the balance of polarities that exist in this reality, realities beyond and inside you. Ascension Vibration's yin yang symbol is utilized to bring into balance inner, outer, upper, lower aspects of our being and our positioning to the world around us.

Your Ascension Vibration attunement gives you access to this highly individualized vibration and the power of the yin yang symbols as an activator of your ascension vibration.

Metatron Initiations

Metatron is the Archangel and Seraphim who sits before the throne God. Metatron is the keeper of the outer light of God. AA Metatron is also the Archangel of the Platinum Ray.

Metatron supposedly was the Prophet Enoch before God turned him into an archangel. His primary task among the heavenly court is to maintain the eternal archives of the Lord, recording each and every event that transpires and creating new ones.
