Amora – Ray of Unity

In Hinduism unity is one of three divine forces. .

In Kabbalah, unity amongst people is a method for achieving spirituality. Kabbalist Yehuda Ashlag stated in his article, "Unity of Friends," that "the important thing that stands before you today is the unity of friends. Toil in that more and more, for it can compensate for all the faults." His son, Kabbalist Baruch Ashlag, also emphasized a method among friends that involved unity to reach the spiritual. In previous generations Kabbalists such as Rav. Abraham Kook argued that the affirmation of God aspires to reveal unity in the world as it is the basis of all spiritual knowledge and one the highest notions which mankind can perceive.

In Christian religion the unity has shown as God the Father, God the Son and God the Holy Spirit – the divine three which are always united.

In metaphysical terms unity is something that unites, makes whole, complete, brings together, and makes connection.

John the Baptist

Quotes from the Founder, Manuela Marx John, the Baptist appeared to me (Manuela Marx) while I was dreaming. This happened during the night of May, 1st to May 2nd 2006. John helped me to remember a symbol which was intended to be used by me to come into, to be and to stay in harmony with my godly plan on Earth (soul purpose).

Thus, this symbol was a symbol of protection for my soul when coming into contact with other people, beings or things which might eventually evoke fear within me - brought on by people, beings or things who don't 'live' their own godly plan/ soul purpose. I knew that everyone who is living his/ her life purpose can never be a threat to others and existence in general.

John's symbol brings peace, healing and quenches the mind. When I woke up from the dream - while drawing the symbol in my mind - I saw how a cloud had formed just above my altar table. I could see this cloud clearly with open eyes (!) – this kind of shocked me, first. The cloud of light looked like fog which was moving around IN my room (without noticeable movement of air). This cloud moved around in an area of approx. 2 x 2 x 2 meters and appeared close to a card depicting John the Baptist, baptizing Jesus.

Kuthumi animal healing light

An energy work that is directly given by Master Kuthumi. You can use the energy for the healing of sick animals,

Master Kuthumi presents us with his energy, a wonderful work for animals.

He puts us very fond of this work, especially because the animals need our support. In the second place, but also because it is time for us to afflict us apart on our fears, the animals, to let go of these fears can finally.

Through this process it is possible for us to connect us with the energy fields of the animals and to support them with our energy.

Often, the energy flows through the transfer of the animals but also return to us.

Lady Nada

Ascended Lady Master Nada is Chohan of the Sixth Ray, the purple and gold ray, of peace, service and brotherhood. She tutors souls in mastering these qualities in the solar-plexus chakra, and helps them prepare to receive the Holy Spirit's gifts of speaking in tongues and interpretation of tongues. In addition, she is known as the unifier of families and twin flames. The word Nada means the voice of the silence, and also a receding of the personality into the nothingness, giving way to the Christ Self.

Healing is one of Her actions or services to mankind. She is one Who directs healing to the mankind of Earth. She uses a Pink Flame for some of Her work. Nada is a member of the Karmic Board and represents the Third Ray in that body. She has recently assumed the Chohanship for the Sixth Ray for the time being. Her symbol is a pink rose.

Nada also serves on the Karmic Board—a group of eight ascended masters and cosmic beings who dispense justice to this system of worlds, adjudicating karma, mercy and judgment on behalf of every soul. Through both these offices in the Great White Brotherhood (chohan and member of the Karmic Board), she teaches the path of personal Christhood by expressing love through ministration and service to life.

She assists ministers, missionaries, healers, teachers, psychologists, counselors at law, professional people, public servants in government as well as those devoted to serving the needs of people in every branch of human and health services. You will also find her at the side of businessmen and -women, blue-collar, skilled and unskilled workers, farmers, ranchers, defenders of freedom and revolutionaries of love in every field.

Assisting Saint Germain in his "great gathering of the elect" who will serve with him in the cause of world freedom is beloved Nada, Chohan of the Sixth Ray. This Ascended Lady Master also serves on the Karmic Board as the representative of the Third Ray. Through both offices she teaches Jesus' path of personal Christhood through ministration and service to life.

In other embodiments, Nada took up the avocation of law and became an expert in the defense of souls oppressed by the spoilers in the earth. During her meditations upon the Law of God and in the course of her ministrations in the temple, she perceived the Law "as the certain defense which the Mother must use to protect her children from the wiles of this world, from the fallen ones who seek

also to use the Law to their unjust purposes." In her final incarnation 2,700 years ago, Nada was the youngest of a large family of exceptionally gifted children.

The beloved angel Charity appeared to her at a very early age and taught her how to draw God's love from the flame in her heart and to radiate it into the Nature kingdom for the blessing of life. The Archeia of the Third Ray also taught Nada to expand her threefold flame for the quickening of the chakras of her brothers and sisters, that by a heightened inner awareness they might bless the people and uplift the culture of the Divine Mother on earth through the arts.

The gifts of the Holy Spirit which Nada administers are those of diverse kinds of tongues and the interpretation of tongues. These gifts involve the mastery of nuances of vibration in the five secret rays and their almost infinite combinations with the elements of the seven rays as the qualities of the Word are released through the petals of the chakras.

As pertains to human, divine, and angelic tongues, these gifts involve the mastery of speech, communication and the delivery of the Word. They range from the mastery of earth's languages for the transmission of the Word universally to all to proficiency in the tongues of angels as spoken by angelic messengers through the empowerment of the Holy Spirit.

The gifts of tongues also facilitate understanding between peoples and figure in the art of diplomacy and just plain getting along with your neighbor--the soft answer that turneth away wrath, the bridling of the tongue that James admonished--comforting a child or the wounded soul or dealing in the power of the Lord's Spirit with the Devil's railings and possessing demons.

Following in Jesus' footsteps, beloved Nada had assumed the full Chohanship of the Sixth Ray by December 31, 1959. Nada serves in Jesus' retreat in the etheric octave over Saudi Arabia, where many disciples of the Lord have received their training directly from his Sacred Heart, face to face, during the Saviour's two-thousand-year occupancy of that office.

Here in the home of the Prince of Peace Nada instructs and gives exercises in the God-mastery of the emotions and the quieting of the inordinate passions of the desire body. Using Jesus' mantra "Peace be still!" she demonstrates the use of the solar plexus for the release of the power of peace through the seven sacred centers. Here, too, she unveils the mystery of Jesus' saying "He that believeth on me, out of his belly shall flow rivers of living water. " As Nada directs disciples in the application of the radiant purple-and-gold flame of the Sixth Ray--a key step in the nine steps of precipitation taught by the Master Alchemist Saint Germain and the priesthood of the Order of Melchizedek (as well as by the Seven Mighty Elohim and the elemental builders of form) she stresses the path of devotion (bhakti yoga) through the reestablishment of a personal heart-tie to Jesus. This lovetie, she says, is the key to "believing on him." And in this case, believing is seeing--seeing just how to put on his consciousness, to assimilate his Body and his Blood, and to internalize his Word.

Oneness with the Christ of Jesus, chakra by chakra, reinforced through the individual Christ Self, is the open door to the disciple's instrumentation of that flow of Light from the Great Central Sun by which sons and daughters of God hold the balance for earth and her evolutions. The flow of Light out of "the belly," which means through the solar plexus, or place of the Sun, is of spiritual significance:

Here the belly refers to the womb as the matrix, or place prepared, for the soul's alchemy of bringing forth the Divine Manchild--the Christ consciousness of the universal age. This realization of the self as the instrument of the Greater Self with its attendant putting on of the Light of the, Great Central Sun (the Son of God) leads to the God Self-realization of the Mother seen as the soul who is Woman, "clothed with the 'Sun.'" By this Sixth Ray alchemy of Christ's love combined with the Ruby Ray action of the Third Ray--present in the Manchild who has the gifts of the Holy Ghost while he is yet in his mother's womb--Nada, assisted by her angels and devotees, contributes to the mitigation of world tension and the astral weight of the mass consciousness. Thus, this path of practicing the presence of the Lord--pursued by his own who abide in his heart as he abides in theirs--is the Sixth Ray aspect and action of the transmutation of personal and planetary karma.

Nada is very much involved in the initiation and sponsorship of twin flames and the Aquarian-age family. And she draws her circle of love around homes of Light where father and mother set the example of the Path and children are tutored in the Law from birth by right standard and right action.

Planetary Rays

Prior to 1960, this planet for the last 3.1 billion years basically dealt with the seven major rays. These seven rays are:

1. First ray: power, will and purpose (red)
2. Second ray: love/wisdom (blue)
3. Third ray: active or creative intelligence (yellow)
4. Fourth ray: harmony (emerald green)
5. Fifth ray: concrete science (orange)
6. Sixth ray: abstract idealism and devotion (indigo)
7. Seventh ray: ceremonial order and magic (violet)

Then in approximately 1970 a most extraordinary event occurred on this planet.

There was a special dispensation to this planet of five new rays. These five new rays are:

8. Eighth ray: higher cleansing ray (seafoam green)
9. Ninth ray: joy, attracting the body of light (blue-green)
10. Tenth ray: anchoring of the body of light, inviting soul merge (pearlescent)
11. Eleventh ray: bridge to the new age (pink-orange)
12. Twelfth ray: anchoring of the new age and the Christ consciousness (gold)

The twelve rays are the twelve planetary rays that exist on this planet. Each is a stepped-down version of the original cosmic rays at the Creator levels. This does not mean they are not powerful, on the contrary they are perfectly powerful for all of us here on Earth. Each human being is created from many of these rays, which give us our attributes. Each of us are stronger in some rays and weaker in others. That is why it is important to call on the rays to balance oneself.

If you want personal power, call on the red ray. If you want cleansing, call on the eighth ray. If you are doing scientific work, call on the fifth ray. If you want devotion, call on the sixth ray. If you want transmutation, call on the seventh ray. If you want pure Christ consciousness, call on the twelfth ray. If you want to attract your body of light, call on the ninth ray.

The Ascended Masters have worked with mankind throughout the centuries. Most of the time in the past the Ascended Masters have worked in the background. Each of the Ascended Master is Chohan or Master of a particular ray.

Sanat Kumara

The Kumaras

To control and aid the evolution on the Planet Earth the Seven Holy Kumaras were sent here in the time of the Lemurian root race. In over millions of years they have given much of Their Light, Love, and Life to assist in the forward evolution of Earth. Their Flames are intricately woven, at every level, into the very structure of our being. Up until now, most have only heard of one of the Holy Kumaras, Sanat Kumara, who according to the Japanese legend came from Venus and landed on Mt. Kurama (note the anagram), but there are seven and each of them also has a female counterpart.

The seven Kumaras are:

- Sanatka Kumara- First Ray, Blue Flame, Will of God
- Sananda Kumara - Second Ray, Yellow Flame, Wisdom of God
- Sanatana Kumara - Third Ray, Pink Flame, Love of God
- Sujata Kumara - Fourth Ray, White Flame, Purity of God
- Kapila Kumara - Fifth Ray, Green Flame, Science of God
- Sanna Kumara - Sixth Ray, Red Flame, Peace of God
- Sanat Kumara - Seventh Ray, Violet Flame, Freedom of God

Shaktipat

In the Yoga tradition shaktipat (descent of Grace) is the infusion of energy from the spiritual master to the seeker. It brings about the awakening of the seeker's own inherent spiritual power, called kundalini.

This transference of energy from the master is an initiation that activates an inner enfoldment of awareness that leads to progressively higher states of consciousness. You can envision this energy as one candle lighting another candle – the Master projects a current of Divine Power (Shakti) into your subtle body. This in turn releases your inner prana (life force). This transference does not take any effort at all; your only duty is to surrender, the Shaktipat is spontaneous. The manifestation of Shakti is solely the work of the Divine power (Shakti) Itself.

To practice this type of shakti means that you must simply allow the Divine power the opportunity to perform the action by Itself.

Ascended Master Kuthumi will be your Guru or Master in the Shaktipat Initiation.

Strength Movers of the Light

The Strength Movers of the Light Divine Energy System will attune you to the functions and action sets that are associated with these Light Beings. They will also give you the Empowerments to the Strength Movers of the Light themselves and the Light Attendants who are associated with them. Their names may be printed on cards, to make a deck of cards that may assist you to determine which of the Strength Movers of the Light want to respond to your question or intention at this time. This makes it easier to be unattached to the outcome of our question or our conscious mind's expectation or who of the Strength Movers of the Light are best suited to assist you right now. The Strength Movers of the Light are a group of Light Beings, many of whom you already work with by other names. They come together under the name of Strength Movers of the Light to bring you specific attributes, access and actions that you may otherwise have difficulty identifying and setting into motion for your life intentions.

They are Ascended Masters, Ancient Ones, Shining Ones, Archangels, Nature Spirits and others of Divine Lineages which prefer to remain in mystery in respect of the name by which they are normally known. These energies are aligned with Divine Law and Will. This means that if anyone attempts to use them for other than the Highest Divine Good they will simply be inactive and not carry out that part of your intention.

St Germain's Violet Flame

The conscious use of the violet flame is the only means that life has provided, by which all of us can free ourselves from our own discord and imperfection. This means to call to the, "Mighty I am presence", and to produce the violet flame and visualize/feel the flame passing through your body and around it. This is the way we become free of our limitations. Eternal law is that all must purify themselves by daily use of the violet consuming flame. It is not possible for anyone to do this for you as you create your own imperfections. As you created them, you must purify them until all in you manifests perfection, then you will be free.
