The Blue Star Celestial Energy System or "Os-Mo-Ro-Pup" is a transmission of spiritual ability to bridge the gap between God and man. It offers a passage through the Universal door allowing the adept to continue the search for knowledge, enlightenment and it's sharing with all sentient beings. Blue Star is both concerned with the immediate benefits like protection, health and financial as well as the longer term benefits such as growth, spiritual development and evolution. ### **Dolphin Prism Empowerments (5)**

This is a 50 page manual that has 5 different dolphin empowerments and meditation, which are: Shangri-la crystal cave empowerment, rainbow dolphin dreams with Quan Yin, Rainbow Dolphins, Orcas, Belugas, and Humpbacks Dreams with Mother Gaia, Dolphin Rainbow Sphere, and Dolphin Golden Temple Empowerment. The manual is more than just the 5 empowerments, too; the first part is about orcas and a story and song about them and the author's experiences and more.

The energy of the dolphins and the galactic encoding they hold for humanity is ready to come to the surface for a deep breath of fresh air.

As we reach a higher state of being able to see and hear the fluid messages we come to a holding place of information. The dolphins are the keepers of this earthen place swimming about in the ethers and ley lines of earth looking with a keen eye for those who they recognize as the guardians.

As with one who keeps the stories to pass down from generation to generation these Stellar Dolphins are at the point of passing their knowledge to those who will listen and then do something with that knowledge.

Each person on Earth is united in body, mind, soul, and heart with the frequencies of at least two dolphin energies. These dolphins are very much alive. They mostly swim Inter-dimensional, but are completely yours for the thinking.

They will swim into your heart when you need love, swim into your body when you need healing, swim into your soul when you need the company of the stars. They are as much a part of you as the oceans.

The blue blood of your body has the same chemical composition as the mother ocean herself. Call to the dolphins to cleanse the debris of self and carry it to a port of call that will infuse it with a higher light.

These Dolphin Empowerments are meant to indeed show you and help you to understand that love is the glue that holds all together?
