ASCENDENCY ENERGY 999

It is now time for Mother Earth to return to her perfect awareness. The beings on our planet and Mother Earth herself have lived in duality for a long time, residing in the physical body, experiencing matter and density. After this long separation, the time has come to advance from the third dimension and remember who we are, that we are in fact Light. As we remember, we can help others who are still "asleep" in their awakening so that we all recognize ourselves in Knowing we are all connected in the I AM and the unity of ALL THERE IS.

Over the past several years many cosmic events have occurred to help the advancement of Mother Earth and all her creatures to the higher collective energies. The duality of female and male within our bodies is merging with the help of this galactic energy flow, as the Earth merges with the galaxy. This has helped our light bodies merge with our solar light, enabling infinity codes to flow into our bodies, bringing us rejuvenation.

With this attunement your light body can move to the next higher vibration patterns, gradually aligning your vibration and light body. If you are ready you will move into the New Energy, the vibration of 999. This system helps to activate two "new" chakras, The Eranus chakra and the Luinia chakra.

You will learn about the monad and your aspects of soul. As you move to the energies of the 5th dimension others in your soul group will have their vibrations raised as well. The fifth dimension is about love, equality and the true potential to live.

ATLANTIS CRYSTAL ELIXIER

Seraphis Bay, also called The Egyptian is a Member of the Great White Brotherhood, the Chohan of the 4th Ray, The White Ray of Purity, Discipline and ascension and the connection between the pure divine plan and matter.

Message from Seraphis Bay: “The dimensions are shifting more and more, the ascension of planet Earth in the 5th Level of the Light is imminent. Therefore, it is of such great importance for the human race to increase and align their frequencies. I invite you now to travel with me to ATLANTIS, a journey into reality. There you will, if you are willing, in a large ceremony, drink from the holy chalice, the Crystal Elixir of Reality. The Crystal Elixir of Reality is from the highest levels of light. It allows you to wake up from the sleep of duality and to know the one truth of light. So it is.”

This is a highly energetic Activation in alpha crystal frequency: MAGNETIC.

Prerequisite: your anchoring in Ascendency Energy 999.

RAINBOW SEQUENCE HEALING

The Rainbow Sequence Healing Technique is a wonderful way to enhance your energy healing work and compliments other systems such as Usui Reiki, Kundalini Reiki and many more. According to Anna May, the founder of this system, “The Rainbow Sequence Healing Technique was founded following inspired communications with a number of Light Beings I work with. In particular, the Avalonian and Lemurian Light Beings (through Goddess Amara) were instrumental in bringing these high vibration connections to me...”

Working with the Rainbow Sequence Healing Technique will assist in returning you to a state of wholeness; you will be restored to your etheric blueprint and operate on the earth plane at your full potential as a Master Being of Pure Love and Divine Light. When you align yourself with the intention, the abundance and the love of the Universe you can live in accordance with your truth and achieve your potential through a conscious, creative process. The Lemurians are supporting all of humanity in this endeavor, and encourage us to call upon them for guidance, reassurance and inspiration.

Universal Light is the Source energy that permeates and sustains all of creation. Universal Light can be expressed as rays of different colored spiritual light. It is these multi-colored energies that are employed in the Rainbow Sequence Healing Technique. The seven rays may be considered different ‘aspects’ of the Universal light and are also reflected in the human energy field as chakras.

Different conditions can cause imbalance in different areas of the human energy field. A particular illness may cause or result from imbalance in a particular energy center. The channeling of energy for healing work will initiate chakra balancing on its own. However, through the Rainbow Sequence Healing Technique, this process can be applied more precisely and adapted according to the specific needs of the client or yourself at the time. This system keeps the chakras in a healthy state to ensure the

free flow of energy up and down the main channel. In this state of balance and harmony, we are optimally connected to our own 'higher light' and to the Universe, and we feel 'whole' and at peace.

When we raise our own energy it also raises the consciousness and vibratory level of the whole world to some extent. These subtle changes to higher vibration radiate outwards to touch others. Regardless of whether you are consciously working towards your spiritual development/spiritual ascension, the Kundalini energy within you will be awakened. Our spiritual awareness is elevated and we come to manifest our 'true' or 'higher' Self to a greater degree and live out our spiritual destiny.
