Stone Circles and Alignment

Imagine standing within a circle of ancient stones, their weathered surfaces holding the echoes of prayers, rituals and mysteries long past. The air hums with a quiet power, a presence that feels both familiar and vast, as though time itself pauses in reverence. These are more than monuments of stone - they are living gateways to wisdom, alignment and deep spiritual connection.

Stone Circles have been standing for thousands of years, woven into the fabric of the land, aligned with celestial movements and infused with energies that still call to those who listen. They are spaces of remembrance, places where the earth and cosmos meet, where seekers come to attune to something greater than themselves.

This course is an invitation - an opportunity to move beyond studying Stone Circles from a historical perspective and instead experience them as living, breathing energetic spaces. You will learn not only about their construction and purpose, but also how to connect with them in a way that brings insight, healing and alignment to your own life.

The Purpose of This Course

Stone Circles exist across the world, from the well-known formations of Stonehenge and Avebury to the lesser known yet equally powerful circles hidden in remote landscapes. Their purpose has long been debated - were they temples, places of ceremony, cosmic clocks or something even more profound? The truth is, they hold many functions

and their meaning is often revealed only through experience.

This course is designed to guide you into direct connection with these ancient sites, their energy and the wisdom they hold. Through meditations, rituals and practical exercises, you will begin to:

Attune to the sacred energies held within Stone Circles.

Understand their alignment with the cosmos and the earth's energy grid.

Experience their role in transformation, healing and spiritual awakening.

By the end of this journey, you will not only have deepened your knowledge of Stone Circles, but also formed a personal relationship with their energy, allowing their wisdom to integrate into your daily life. Whether you are drawn to them for healing, clarity or a deeper spiritual connection, this course provides the tools and guidance to explore them in a meaningful and experiential way.

Consecrating the Healing Light – Value \$300 / R5400

Founder: Ramon Martinez Lopez

Consecrating The Light Mantras Empowerment from the manual...
When you say these words mentally or aloud, you are calling the rays of creation, you raise your vibration internally in your cells and in union with multi-cosmos.

Good before praying, healing sessions or just meditate on. This energy comes directly from the immortal light source to every sentient being and is filtered through various parts of the mind.

We might call this energy divine creative force. Miraculous Prayer uses the force of the miraculous to bring about a desired result. Adding positive emotion to the energy of a prayer improves the outcome of the prayer. Repeat a prayer mantra focused on your desired outcome.

Notes: There is no explanation for the mantras, this is the reason because these prayers go to the subconscious mind to release your false beliefs about who you are. If you trust you create an infinitive space for manifesting divine light that resides in you and the entire cosmos.

You do not need to recite the mantras correctly, follow your heart. You can recite the mantras as many times as you can, follow your intuition.

The energy created by recitation cleans and awakens your kundalini safely.

Solar Light – Value \$25 / R450

Founder: Ole Gabrielsen

The Solar Light Empowerment is a powerful energetic attunement that connects you to the high-vibrational, healing energy of the sun. This attunement aligns you with solar frequencies, which promote healing, regeneration, emotional balance and spiritual clarity. The energy of the Solar Light is warm, uplifting and purifying, helping to dissolve negative energy, enhance joy and inner peace and strengthen your spiritual connection.

Receiving this attunement allows you to channel Solar Light energy for healing - either for yourself or others - by simply intending to activate it. It can be used alone or in combination with other healing practices, enhancing meditation, energy work and daily spiritual alignment. This empowerment is particularly effective for overcoming grief, clearing emotional blockages and illuminating hidden aspects of your path.

Once attuned, you can access Solar Light energy at any time, experiencing its radiance, warmth and transformative power as a source of continuous healing and spiritual support.

Mandala Nature Medicine – Value \$25 / R450

Founder: Joanna Mullane

These beautiful Medicine Mandala empowerments act as activations for your physical, mental, emotional and spiritual bodies. They work to purify and release you from any less than light energies, filling your Spirit with Divine White Light and then imprinting the Medicine of the particular Mandala you are being attuned to. These energies are passed onto you by the Archangel Raphael, the Divine Healing Angel. The Nature Medicine within this empowerment was created to help one:
